IP10-9 installed on FAA Approved EMS Medical Wall

IP10-9 without CME Infusion Pump Installed

Main Housing

Swivel Rod System (SRS) Main Housing Connection

SRS gives a 30º Vertical Range rotation capability and a 45º Horizontal Range rotation capability and a 180º Vertical tilting capability.
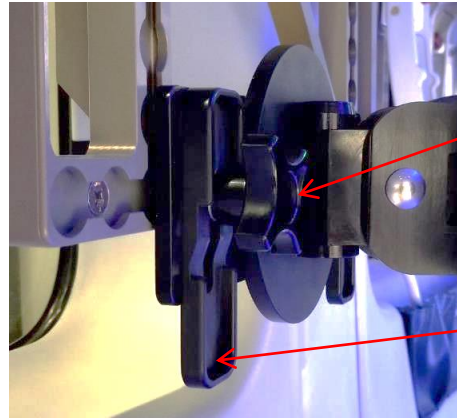

Med Wall Locking knobs

Quick Release Sliders

1) To remove the infusion pumps from IP10-9 pull plungers on both sides of the main housing, turn ring plungers 90º and remove pump.

JJASPP-IP30 Mount with Swivel Rod System (SRS)

Medical Wall Attachment Component

1) To un-install SRS from Med Wall, push both quick release slider up; then squeeze locking knobs and swivel plate together while pulling the swivel plate toward you. Then slide the SRS left or right until it disengages from the Med Wall.

2) To install the SRS, squeeze locking knobs and swivel plate together while pushing the swivel plate track studs into the Med Wall track. Then slide the SRS left or right until it stops in the Med Wall. Press both quick release sliders down to lock the SRS to the Med Wall.
