FEDERAL AVIATION ADMINISTRATION - PARTS MANUFACTURER APPROVAL

In accordance with Title 14, Code of Federal Regulations (14 CFR), part 21, Certification Procedures for Products and Parts, subpart K, the FAA has found that the design data, as submitted by JJASPP Engineering Services, LLC, (hereinafter referred to as "the Manufacturer") on March 31, 2011, meets the airworthiness requirements of 14 CFR applicable to the product(s) on which the part(s) is to be installed. Additionally, the FAA has determined that the Manufacturer has established the fabrication inspection system (FIS) required by § 21.303(h) at 4846 S. Collins St. Arlington, TX 76018. Accordingly, Parts Manufacturer Approval (PMA) is hereby granted to the Manufacturer to produce the replacement parts (or modification parts, as applicable) listed in the enclosed supplement(s) in conformity with the FAA-approved design data. Subsequent changes to these design data must be approved in a manner acceptable to the FAA.

The following terms and conditions apply to this approval:

1. The Manufacturer's FIS, methods, procedures, and manufacturing facilities, including suppliers, are subject to FAA surveillance and investigations. Accordingly, the Manufacturer must advise its suppliers that their facilities are also subject to FAA surveillance and investigations.
2. The Manufacturer must notify the Fort Worth Manufacturing Inspection District Office (MIDO) in writing within ten working days from the date the manufacturing facilities, at which parts are manufactured, are relocated or expanded, to include additional facilities at other locations. This requirement also applies to the Manufacturer's suppliers with major inspection authorization, and those suppliers who furnish parts or related services where a determination of safety and conformance to the approved design cannot or will not be made upon receipt at the approved receiving facility.

Type Certificate

Number R00004RC

This certificate issued to JJASPP Engineering Services, LLC certifies that the type design for the following product with the operating limitations and conditions therefor as specified in the Federal Aviation Regulations and the Type Certificate Data Sheet, meets the airworthiness requirements of Part 21.25 of the Federal Aviation Regulations. Additional Airworthiness Requirements are FAR 21.25 (a) (2), effective February 1, 1965, for the special purpose of External Load Operations under FAR 21.25 (b) (7)

This certificate, and the Type Certificate Data Sheet which is a part hereof, shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: December 13, 2011

Date of issuance: March 4, 2013

By direction of the Administrator.

Supplemental Type Certificate

Number SR09580RC

This certificate issued to

JJASPP Engineering Services
4846 S. Collins Street
Arlington, TX 76018

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified herein meets the airworthiness requirements of Part 6 of the Civil Air Regulations.

Original Product -- Type Certificate Number: H2SW
Make: Bell Helicopter Textron Canada
Model: 206L-1

Description of Type Design Change: Installation of Patient Oxygen System in accordance with JJASPP Engineering Services drawing JJASPP-MDL-206-35-002, Rev. A, dated 9/13/2010, or later FAA approved revision. FAA Approved JJASPP Rotorcraft Flight Manual Supplement, Document No. JJ-FMS-206-35-002, Rev. IR, dated 10/1/2010 or later FAA approved revision is required. Instructions for Continued Airworthiness, JJASPP Document No. JJ-ICA-206-35-002, Rev. IR, dated 10/20/2010, or later revision is required.

Limitations and Conditions: Compatibility of this design change with previously approved modifications must be determined by the installer. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: June 03, 2010

Supplemental Type Certificate

Number SR09634RC

This certificate issued to JJASPP Engineering Services, LLC
511 Harmon Terrace
Arlington, TX 76010

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 29 of the Federal Aviation Regulations.

Original Product - Type Certificate Number: See Approved Model List (AML)

Make: See AML

Model: See AML

Description of Type Design Change:

Installation of a Balloon Pump Restraint System (BPRS). See AML for applicable Installation Drawing, Rotorcraft Flight Manual Supplement, and Instructions for Continued Airworthiness.

Limitations and Conditions:

The installer must determine whether this design change is compatible with previously approved modifications. If the holder agrees to permit another person to use this certificate to alter a product, the holder must give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
